Safe Harbor Summary

This presentation contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 as amended, including the Company's outlook for gallons sold and Adjusted EBITDA in fourth quarter of 2013. These forward-looking statements are based on current expectations, estimates, assumptions and projections that are subject to change, and actual results may differ materially from the forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, potential changes in governmental programs requiring or encouraging the use of biofuels; government policymaking and mandates relating to renewable fuels; the future price and volatility of feedstocks; the future price and volatility of petroleum and products derived from petroleum; expected future financial performance; our liquidity and working capital requirements; availability of federal and state governmental tax credits and incentives; anticipated trends and challenges in our business and competition in the markets in which we operate; our ability to estimate our feedstock demands and biodiesel sales; our dependence on sales to a limited number of customers and distributors; technological obsolescence; our expectations regarding future expenses; our ability to successfully implement our acquisition strategy; and other risks and uncertainties described from time to time in REG's annual report on Form 10-K, quarterly reports on Forms 10-Q and other periodic filings with the Securities and Exchange Commission. The forward-looking statements are made as of the date of this press release and REG does not undertake to update any forward-looking statements based on new developments or changes in our expectations.
